Manga: 4.68m / 15.35feet

DEPOSITOS

Combustible: 2000 L
Agua: 600 L

Especificaciones e Inventario

The Flying concept has undergone a revolution thanks to its outstanding sporting qualities, perfectly integrated with the structure of the boat, making it one of the most stable and welcoming yachts, where design moves between art and inspiration and where elegance and functionality go hand in hand. The Flying concept has also undergone a revolution thanks to new solutions, flowing lines, play of light, attention to detail, domestic environments and rounded shapes. The upper deck of this Flybridge, perfectly integrated with the lines of the boat, represents the nerve centre on board thanks to its ample spaces and refined fittings.

The exceptional interior tones create a warm and domestic atmosphere.
